Four GENERATIONS Same FEDERICI FAMIGLIA

Frederick's

EST . 1896

Welcome to Frederick's and our 2026 price list.
Be inspired for a fantastic season from one of the country's best-loved family ice cream businesses.

We have proudly served our customers over three generations of the same Federici family since 1896! Over this time, we have amassed multitudes of national accolades for our product quality and business operations.

Frederick's manufactures only the finest, high quality luxury ice cream from our factory in the heart of Lancashire. We also have three of our own ice cream parlours all operated by the family.

We are the first and only choice for the best ice cream and highest quality.

1896 Celebrating 130 Years 2026

Pavement Sign

Heavy duty sturdy base that won't tip over easily.

ALLERGENS

Our manufacturing procedures and practices follow strict food hygiene and health regulations, however the factory handles many types of potential allergens. Therefore we cannot guarantee any of our products have not been cross-contaminated during the manufacturing process, storage or shipping.

Please be aware that ingredients are subject to change at any time, which is usually beyond our control. Always refer to the specification and packaging labels to ensure you have the most up-to-date information.

TOP TIPS

Having a bright, colourful display will help you sell more ice cream.
Follow these simple storage and display tips to keep your ice cream looking and tasting great:

Store your ice cream in a deep freezer at a constant -18 °C until needed for display. Any warmer and ice crystals will form in the ice cream and alter the texture and enjoyment of our ice cream.

Cover the ice cream in the display at night by replacing the lids.

Wipe around the top edges of the containers on display to keep them clean and scoop back the top layer of ice cream to keep it looking fresh.

Keep your tubs full and make sure every container has a different flavour.

Once a month, empty, defrost and deep clean your display freezer.
